Index to Volume XXXII

Journal of Heredity, 1941

A

Acenaphthene and Colchicine, Albert Levan, (Excerpt), 6.
Acer hybrid, 11.
Achondroplasia in Calves, Graydon W. Brandt, 183.
Age of Science, A. J. Carlson (Excerpt), 144.
Agglutination, 179, 429.
Albino: ducks, 19; fowl, 71; horses, 257, 235, 255; raccoons, swordfish, 385; timothy, 227.
Allen, Charles E., Genes and Regeneration (Excerpt), 300.
Ancobar poultry, 221.
Animal Genetics, etc.:
Animal longevity, 56.
Cattle: achondroplasia in calves, 183; causes of variation in milk yield (Rev.), 398.
Chromosomes, structure of, 96, of sheep, 261; of grasshopper, 296; with two spindle attachments, 423. (See *Drosophila.*)
Dove species cross antigens, 179.
Drosophila: "lampbrush" chromosomes, 147; penetration of by ultra-violet rays, 51; salivary gland chromosome maps, 64, 299.
Ducks, plumage variations in, 19.
Farm animals (Rev.), 122.
Fowl: autosexing, 221; double-wing pheasant, 139; imperfect albinism, 71; inheritance of shell finish, 33; microphthalmia, 310; multiple spurs, 357; polydactyly, 3; poultry coordinators, 192; skeletal genes, 288; twin embryos, 268, 341.
Gene: Chromosome symposium, 391; structure of, 91, 96.
Goats, quintuplets, 5.
Grasshopper genetics, 339; trisomic, 296.
Horse, coat color in, 235, 255.
"Information Please" on Genetics, 32.
Intersexes, 309.
Minks, color mutations in, 173.
Mouse: biology of, 368; hybrid vigor in, 393; short ears in, 94.
Pheasant, double-winged, 139.
Protozoa in biological research (Rev.), 275.
Raccoons, albino, 416.
Rat: coat color in, 295; domestication and color genes, 400; tooth defect in, 397.
Reversions, genetic basis, 385.
Russian contributions to 1939 Genetics Congress, 248.
Salivary glands of *Prodiamesia olivacea*, 165; of Drosophila, 64, 147, 299.
Sheep: chromosomes, 261; sex ratio of twins, 254; tailless, 21.
Swine, leg paralysis, etc., 271.
Animal Longevity, 56.
Antigenic differences in dove species, 179, 429.
Antirrhinum, tetraploid, 278.
Are Women People? (Rev.), 332.
Artificial Hybrid Between Two Species of Bluegrass, Wm. H. Brittingham, 57.
Asexual Propagation of Sugar Beets, F. V. Owen, 187.
Asimina hybrids, 83.
Autosexing Ancobar, W. F. Lamoreux, 221.

B

Back to Their Ancestors, Myron Gordon, 385.
Baldwin, J. T., Jr., Galax: the Genus and Its Chromosomes, 249.
Bamford, Ronald, Chromosome Number and Hybridization in Gladiolus, 419.
Bamford, Ronald and Fred B. Winkler, Spontaneous Tetraploid Snapdragon, 278.
Bargen, J. Arnold et al, Familial Trends in Human Cancer, 7.
Bauer, Donald DeF., Genetical Research and the Physician, 101.
Baum, Harold M. and Kenneth L. Cartwright, A New Fur Pattern Variation in Rats, 295.
Baxter, R. C. et al, Studies in Human Inheritance, 22.
Baylor University Twin Convention, 27.
Beal, Dr. W. J., Weed seed experiment, 270.
Bean, X-ray mutations in, 39; polyploid, 133.
Beatification of the House Mouse, Wm. H. Gates (Rev.), 368.
Beets, propagation of, 187.
Belisle, Eugene L., Eugenics and the Family, 446.
Berge, S., Inheritance of Paralysed Hind Legs, Scrotal Hernia and Atresia Ani in Pigs, 271.
Berry, R. O., Chromosome Complex of Domestic Sheep, 261.
Bifurcated Xiphisternum and Its Relationship with Short Ears in the House Mouse, E. L. Green and C. W. McNutt, 94.
Bilateral Fenestrae in the Parietal Bones, William M. Goldsmith, 301.
Biological Photographic Association, 226.
Biological Reclamation of Homo (excerpt), 260.
Biological Symposia, 197.
Bissonnette, Thomas Hume, Partial Doubling of Both Wings in a Ring-Neck Pheasant, 139.
Blood groups, linkage relations of, 22; in pigeons, 179.
Bluegrass hybrids, 57.
Books Reviewed:
